

PD-250-18-SLIM

Features

- Fuse of 20A for general protection at the entrance of the source
- PTC resettable fuse for each individual output until 1150 mA
- Protection against short circuit
- Protection against overvoltage and power-line surges

Specifications

Power supply input	AC 96 V - 264 V 50/60 Hz
Power supply outputs	18 outputs via copper pair (clamp)
Output voltage	12VDC
Total power	250 W (20 A)
Max intensity. per output	1150 mA
Protection	Short circuit / Over voltage / Current peaks
Filtered	EMI / PFC
Temp. operation	-20° C ~ +50° C
Dimensions	282 (H) x 206 (W) x 40 (D) mm
UPS function	Connectors for batteries 7AH-24AH externally (Battery not included)
